

東京都

Tokyo One-Stop Business Establishment Center is a place where you can do the various procedures required to set up a company. A satellite center was also opened in Shibuya and Marunouchi in 2017, making it easier to use. Currently, the retailer is operated by operating the EC site of glass and bowl of a modern writer, We talked with Ayaka Wada, who is operating the EC site, and currently preparing information sites for crafts and food.

relay interview

I wanted to do what only I can do.

As I grew up on the internet generation, I thought that most of the things to be checked would come out on the internet.

When I'm interested in crafts as well as beautiful and deep, I'm searching on my smartphone

Things I want to know now do not come out! That's why I thought.

Under these circumstances, in the city where I live now, there are many big libraries in a walking place. There is used bookstores.

Since I could go to the airport in a few minutes, I realized that I was in a very good environment where I could go to anywhere in Japan and abroad immediately.

I can act as soon as I think,

I wanted to do what only I can do.

Hear various stories from the customers, the original customers and manufacturers, and the artists who met in the pottery festival,

I wanted to create more opportunities for more people to be interested in this story.

Information on Japanese crafts and food is not limited to the Internet,

I want to use various new ways and send them out.

Currently, we are preparing a website for sending information on crafts and food.

First of all, we will promote from domestic ones to domestic.

Domestic things abroad, overseas things domestically.

I want to be a person that connects people and people as well as not only the island country of Japan.

Heisei Roman Co., Ltd. Representative director Ayaka Wada profile/

I am from Kiryu City, Gunma Prefecture. After graduating from a fashion design vocational school.

Two years experience as EC site buyers.

Opened "mIn table", a mail-order business for glasses and vessels, as a Sole proprietorship in 2017.

Incorporated as "平成浪漫" in 2019.

We plan to release "Craft" x "Eating" information media "COLE call" June in 2019.

In addition, since various latest information comes into Tokyo early. Information on Japanese crafts and food is not limited to the Internet.

I would like to use various ways to promote.

I felt relieved because I understood what I did not understand.

I always talked about "I want to do something like this" when I met a person with the same intention.

I was introduced various places, and we reached Tokyo One-stop Business Establishment Center. Even if I don't know the procedure of founding, They taught me carefully, and I was able to go through the procedure safely.

The electronic articles of incorporation can be made on my own, so costs can be kept to a minimum.

I felt relieved because I understood what I did not understand.

One point advice from me

I have finally reached the starting line, but I think the first thing is to act!

Even if you do not know the procedures, you can tell me free of charge, so if you have something you want to do, I thought it might be a shortcut to go to a Tokyo One-Stop Business Establishment Center before thinking alone.
